***SENT VIA EMAIL***

Elizabeth Brehm  
Siri & Glimstad  
200 Park Ave  
17th Floor  
New York, NY 10166  
Via email: foia@sirillp.com

Dear Ms. Brehm:

This letter is regarding to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of January 25, 2021, assigned #21-00539-FOIA, for:

“Each and every email communication between January 1, 2014 through December 31, 2016 which includes William Thompson or his email address on the “To”, “From”, “Cc” or “Bcc” line and also includes Kristin Pope or her email address on the “To”, “From”, “Cc” or “Bcc” line. Date range 01/01/2014 to 12/31/2016.”

We located 14 pages of responsive records (12 pages released in full and 2 pages disclosed in part. After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemption (b)(5).

**EXEMPTION 5**

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process and attorney-client privileges. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The materials that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not contain or represent formal or informal agency policies or decisions. Examples of information withheld include legal recommendations rendered by the Office of the General Counsel to the CDC staff. The attorney-client privilege protects “confidential communications between an attorney and his client relating to a legal matter for which the client has sought professional advice” and is not limited to the context of litigation. The information that has been withheld under the attorney-client privilege of Exemption 5 constitutes confidential communications between agency attorneys and agency clients.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to [FOIARequest@psc.hhs.gov](mailto:FOIARequest@psc.hhs.gov).

Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by May 11, 2021.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Andoh', with a stylized, cursive script.

Roger Andoh  
CDC/ATSDR FOIA Officer

**Subject:** IMPORTANT GrantSolutions Announcement Module Update

Good morning,

You are receiving this email because you have a GrantSolutions Announcement Module account. On **Monday, October 19<sup>th</sup>**, you must start using your PIV card to access the Announcement Module. This is a security measure that is being implemented for all Announcement Module users across the federal government.

You will still get automated emails from GrantSolutions every six months asking you to reset your password. You will need to do this in order to access GrantSolutions in an emergency situation. For example, if you lose your PIV card or if you forget it at home, but still need to access GrantSolutions at work. In special situations like these, you will need your user ID and password and a second factor authentication method (similar to how our CDC key fobs work) to access the system without a PIV card. Additional information will be provided for this second factor authentication method process soon.

If you do not have a PIV card, please contact us immediately at [grantsolutions@cdc.gov](mailto:grantsolutions@cdc.gov)

Thank you,  
GrantSolutions Project Management Office
