Dear Ms. Brehm:

Thank you for your recent email to Anthony S. Fauci, M.D., director of the National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health. As you may imagine, Dr. Fauci has a great deal of professional responsibilities at this time. For this reason, he has asked me to respond.

For more information on this analysis, you may wish to contact the U.S. Centers for Disease Control and Prevention (CDC), the federal agency responsible for tracking and controlling infectious diseases. Contact information for CDC is listed below:

Dr. Fauci,

On NBC's Meet the Press on July 4, 2021, you stated:

...if you look at the number of deaths, about 99.2% of them are unvaccinated. About 0.8% are vaccinated. No vaccine is perfect. But when you talk about the avoidability of hospitalization and death, Chuck, it's really sad and tragic that most all of these are avoidable and preventable.

Will you share the data supporting the statement that 99.2% of deaths related to COVID-19 are in the unvaccinated?

Regards,
Elizabeth
