Subject: Response re FAQ on reporting adverse reactions to vaccines

(b) (6)

Hi
Frank Meilinger share the below information related to inquiries on the revised FAQ on reporting adverse reactions to vaccines.

If asked why we updated the FAQ on reporting adverse reactions to vaccines- here is the OPA approved response, "OSHA reconsidered its policy in recognition of federal agencies ongoing work to encourage COVID-19 vaccinations. The agency does not want to give any appearance of discouraging workers from receiving COVID-19 vaccination or disincentivize employers employers vaccination efforts."

Thanks
Lee Anne
