Aaron Siri
Siri & Glimstad LLP
200 Park Ave
17th Floor
New York, NY 10166
Via email: foia@sirillp.com

Dear Mr. Siri:

This letter is regarding your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of January 14, 2022, assigned #22-00721-FOIA, for "[0682C] All communications sent or received by Hannah E. Segaloff, PhD regarding "Shedding of Infectious SARS-CoV-2 Despite Vaccination" available online at <https://www.medrxiv.org/content/10.1101/2021.07.31.21261387v4> and attached hereto as Exhibit A."

We located 117 pages of responsive records (36 pages released in full or part; 81 pages withheld in full). After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemption(s) 5 and 6.

EXEMPTION 5

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process privilege. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The materials that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not contain or represent formal or informal agency policies or decisions. Examples of information withheld include draft documents and predecisional discussions.

EXEMPTION 6

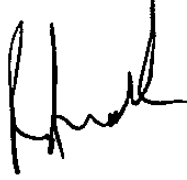

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as cell phone numbers, account login credentials and sites. We have determined that the individual(s) to whom this information pertains has a substantial privacy interest in withholding it.

You may contact our FOIA Public Liaison at 770-488-6246 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Page 2 – Aaron Siri

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/Index.aspx>. Your appeal must be electronically transmitted by May 8, 2022.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Andoh', with a stylized, cursive script.

Roger Andoh
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer

CDC IMS 2019 NCOV Response STLT ADS wrote on 8/11/21 2:18 PM:

Dear colleagues,

I would like to connect the CDC COVID-19 Response Laboratory and Testing Task Force with Wisconsin EISO Hanna Segaloff and a few of the laboratory co-authors from University of Wisconsin, Kasen Riemersma, Dave O'Connor, and Thomas Friedrich. CDC Lab Task Force would like to consult with our Wisconsin colleagues regarding the development of this important manuscript. Please let us know if the State, Tribal, Local, and Territorial Support Task Force can provide additional support.

Best Regards,

Anna

## tfriedri@wisc.edu shared a folder

tfriedri@wisc.edu added you as an editor. Verify your email to securely start contributing to this folder. You will need to verify your email every 7 days. (b)(6)

Hi all.

Not everyone had access to all the files related to our manuscript on viral loads in people infected despite vaccination, so I am sharing the entire folder with everyone who is an author on the paper.

I'll send a follow-up message about some information I need to collect from each author prior to submission.

Thanks!

-Tom

**Subject:** MMWR Proposal Acceptance, ID:1621 - "SARS-CoV-2 infection with high viral loads despite vaccination when the Delta variant is prevalent - Wisconsin, July 2021"

Hello,

Your proposal submission ID: [\[h\]](#) "SARS-CoV-2 infection with high viral loads despite vaccination when the Delta variant is prevalent - Wisconsin, July 2021" has been approved by Response leadership for development as a Tier 1 *MMWR* manuscript.

Tier 1 reports *MMWR* reports follow an accelerated review and production schedule:

- Response Leadership approves concept approval
- *MMWR* development (writing, Task Force Clearance, Task Force Cross-Clearance): 7 days
- *MMWR* pre-clearance review: 2-5 Days
- Strategic Science Unit (SSU) and Chief Health Equity Officer (CHEO) pre-clearance: 1-2 Days
- JIC Clearance (includes Comms, ADS, DIM, IM/PDIM, OS): 7 days
- *MMWR* Submission Deadline: At least 2 business days prior to publication date

Please find attached the [COVID-19 Response Manuscripts & MMWRs SOP for CDC Authors](#), which details the publication proposal and clearance processes. Clearance steps below:

- When your report is ready, please send it for clearance through your Task Force clearance coordinator, including any Task Force cross-clearance. The Task initiated the clearance is responsible for triaging the report through cross-clearance. During Response Leadership review, it was determined that the following Task Forces should cross-clear your manuscript: None. The following Task Forces should be provided with an information copy of your manuscript: None.
- Once Task Force clearance and cross-clearance is complete, you should send draft for *MMWR* Pre-Clearance review *within seven calendar days from today* to [EOCevent172@cdc.gov](mailto:EOCevent172@cdc.gov). If this will not be feasible, please respond to this email, and we will consider moving your *MMWR* to Tier 2.
- Once pre-cleared by *MMWR*, submit a clean version of the report files to the Strategic Science Unit (SSU, [EOCevent172@cdc.gov](mailto:EOCevent172@cdc.gov)) and the Chief Health Equity Officer (CHEO, [EOCevent172@cdc.gov](mailto:EOCevent172@cdc.gov)) for concurrent pre-clearance.
- Once pre-cleared by SSU and CHEO, submit the report files to JIC Clearance ([eocjicclear2@cdc.gov](mailto:eocjicclear2@cdc.gov) using the Clearance Request form
- Once cleared through JIC, the manuscript can be submitted to [ScholarOne](#), along with [Conflicts of Interest](#) forms from all authors

**Please note that approval of a concept proposal does not guarantee that the completed manuscript will be accepted for publication in *MMWR*. Final decision regarding publication in *MMWR* will be made by *MMWR* editorial staff based on review of the completed manuscript.**

Please follow *MMWR* [Instructions for Authors](#) as you develop your manuscript. Previously published [COVID-19 reports](#) can serve as a model to assist you. Please also have a **STARS Number** before submitting your *MMWR* for

clearance; you can contact Covid-19 response HS/PRA Advisors at ([eocjicclear2@cdc.gov](mailto:eocjicclear2@cdc.gov)) for further assistance obtaining a STARS Number.

We look forward to working with you to share your work.

**COVID-19 Publications Review Committee**

Dear Ms. Grande and co-authors,

Thank you for submitting your manuscript, "Shedding of Infectious SARS-CoV-2 Despite Vaccination" to the New England Journal of Medicine.

Your manuscript has been forwarded to members of our editorial staff, who will make an initial evaluation and decide whether it merits further consideration. You will be notified of the decision as soon as possible.

Your manuscript ID (b)(6)

Please mention the above manuscript ID in all future correspondence or when calling the office for questions. If there are any changes in your street address or e-mail address, please log in to ScholarOne Manuscripts at <https://mc05.manuscriptcentral.com/nejm> and edit your user information as appropriate. You may also view the status of your manuscript at any time by checking For Authors section of the site.

We are undertaking evaluation of your manuscript with the understanding that neither the substance of the article nor the figures or tables have been published or will be submitted for publication elsewhere during the period of review.

Please provide the editors with copies of other manuscripts by you or your coauthors addressing similar or related research questions that are in preparation or under consideration at other journals. This does not apply to abstracts published in connection with scientific meetings or to news reports based on presentations at such meetings.

The Journal's policy is explained more fully at <https://www.nejm.org/about-nejm/editorial-policies>.

Please call us at 617-734-9800 if you have any questions.

Sincerely,

New England Journal of Medicine

Account Created for you in ScholarOne Manuscripts

Dear Dr. Segaloff:

A submission entitled Shedding of Infectious SARS-CoV-2 Despite Vaccination ( (b)(6) ) has been submitted by Ms. Katarina Grande to the New England Journal of Medicine.

You are listed as a co-author for this manuscript. The online peer-review system, ScholarOne Manuscripts, automatically created a user account for you. Your USER ID and PASSWORD for your account is as follows:

Site URL: (b)(6)  
USER ID: (b)(6)

PASSWORD: For security reasons your password is not contained in this e-mail. To set your password click the link below.

(b)(6)

You can use the above USER ID and PASSWORD (once set) to log in to the site and check the status of papers you have authored/co-authored. Please log in to (b)(6) to update your account information via the edit account tab at the top right.

If you believe you already have an account with us and this is a duplicate account, or if you do not wish to have an account with the New England Journal of Medicine, please contact us and we will be happy to assist you.

Thank you for your participation.

Sincerely,

Editorial Office

**Subject:** (b)(6) Receipt of New Paper by Nature Medicine

Dear Dr. Segaloff,

Please note that you are listed as a co-author on the manuscript "Shedding of Infectious SARS-CoV-2 Despite Vaccination" (reference number: (b)(6)), which was recently submitted to Nature Medicine.

The corresponding author is solely responsible for communicating with the journal and managing communication between co-authors. Please contact the corresponding author directly with any queries you may have related to this manuscript.

You can now use a single sign-on for all your accounts, view the status of all your manuscript submissions and reviews, access usage statistics for your published articles and download a record of your refereeing activity for the Nature journals. Please check your account regularly and ensure that we have your current contact information.

In addition, Springer Nature encourages all authors and reviewers to associate an Open Researcher and Contributor Identifier (ORCID) to their account. ORCID is a community-based initiative that provides an open, non-proprietary and transparent registry of unique identifiers to help disambiguate research contributions.

Should you wish to publish your ORCID with this manuscript, please use the link below to access your account listed as co-author and attach your ORCID following

(b)(6) >these instructions. Please note that it must be linked prior to acceptance, it will not be possible to add/modify ORCIDs at proof, and you may not receive further notification before an accept decision is made. Please ensure the ORCID is linked to your account associated with this manuscript, and not to any other account you may have on our system.

Login = (b)(6)

(b)(6)

If you have any issues attaching an ORCID to your Manuscript Tracking System account, please contact the (b)(6)

Many thanks,

Editorial Assistant  
Nature Medicine  
medicine@us.nature.com
