Re: FOIA Case Number: 50822, and HHS Appeal No.: 19-0083-AA

Dear Mr. Siri:

This is our final response to your Freedom of Information Act (FOIA) request addressed to the FOIA Office of the National Institutes of Health (NIH), dated February 19, 2019 and received on February 20, 2019. You requested copies of any human or animal studies involving the subcutaneous or intramuscular injection of aluminum adjuvant relied upon by the NIH to establish the safety of injecting infants and children with aluminum hydroxide, aluminum phosphate or amorphous aluminum hydroxyphosphate sulfate.

The NIH Office of Intramural Research (OIR), National Institute of Allergies and Infectious Diseases (NIAID), the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) searched their files and no records responsive to your request were located. The NIH OIR suggests using the following NIH webpages to possibly find publicly available information relevant to your request: <https://intramural.nih.gov> (annual reports), <https://clinicaltrials.gov> (human protocols), and <https://www.ncbi.nlm.nih.gov/pubmed> (published data).

While we believe that an adequate search of appropriate files was conducted for the records you requested, you have the right to appeal this determination that no records exist which would be responsive to your request. Should you wish to do so, your appeal must be sent within ninety (90) days of the date of this letter, following the procedures outlined in Subpart F of the HHS FOIA Regulations (<https://www.federalregister.gov/documents/2016/10/28/2016-25684/freedom-of-information-regulations>) to:

Assistant Secretary for Public Affairs/Agency Chief FOIA Officer  
U.S. Department of Health and Human Services  
Office of the Assistant Secretary for Public Affairs  
Room 729H  
200 Independence Avenue, S.W.  
Washington, DC 20201
