Dear Skip:

I've been busy with other things, but where do you stand with this meeting? In any case, when and where could I call you?

Thanks,

Stanley

They usually are. I will tell Suzanne. We usually include an organization with each participant. Is there an organization you'd prefer to be associated with?

Dear Skip:

I would be happy to help. I hope these calls are scheduled far in advance.

Stanley

Good morning,

One of the steps in the VIS development process is a "consultation meeting" with "appropriate health care providers and parent organizations." In recent years these meetings have been conference calls. They can include representatives of AAP, ACOG, NapNap, AMA, ASTHO, etc. They're usually conducted by colleague Suzanne Johnson DeLeon. I'll ask her to add you to the invitee list for these meetings if you'd like. I think your knowledge and experience would add to the already lively discussions.
