Hi Amanda,

There is a resolution going to the Annual Leadership Forum of AAP about VIS sheets. You may be aware of some or all of this already, as it goes back to Stanley Plotkin's fateful marathon deposition a few years ago. This one does raise a good point in my mind, but I know very little about the politics of what does and does not go into the VIS sheets. I'm reaching out to see if you can give some guidance on what position if any COID might take on this one. I guess my main question is, is what they are asking feasible? Resolution attached, but please don't share. Sorry for the numbering – I had to cut and paste from a large pdf. Happy to get on the phone if that would be easier.

Hope you are well,
Sean

Sean T. O'Leary, MD, MPH | Associate Professor of Pediatrics | Sections of Pediatric Infectious Diseases and General Academic Pediatrics
University of Colorado Denver Anschutz Medical Campus
Investigator, Adult and Child Consortium for Health Outcomes Research and Delivery Science (ACCORDS)
Director, Pediatric Practice-Based Research Network (COCONet)
