**Subject: Re: Severe Adverse Vaccine Reactions - We Need Help**

Dr. Walensky,

I have read your statements on masks. Being a fellow mask-wearer I do believe the science there.

We are vaccinated, mask-wearers, sick and have absolutely NO medical help. This has become even worse in the last 2 months, and exponentially worse in the last 2 weeks.

We need receptive, supportive medical teams.

I am not capable of getting these people what they need. I am just a sick nobody, begging for your help. I can't bear to shoulder the suffering any longer.

We need real leadership to provide an appropriate tone and help start the discussion with the medical community.

These people need appropriate support. Even if we don't have a solution, these people deserve to have the support of a receptive medical community.

Please, please help. We have been abandoned.

-Brienne Dressen
