Re: *Immediate Vaccine Reforms*

Dear Secretary Kennedy,

To summarize the reforms requested over the past several months, the following reforms can be implemented immediately by a stroke of your pen:

1. Repeal the PREP Act declaration for Covid-19 medical countermeasures.<sup>1</sup> While you have signaled your intent to repeal the Covid-19 vaccine Emergency Use Authorizations in 12 months, this does not end the liability protection provided by the PREP Act declaration to licensed Covid-19 vaccines.
2. Update CDC's vaccine "Contraindications and Precautions" webpage.<sup>2</sup>
3. Review decisions issued by the Countermeasures Injury Compensation Program (CICP) for the Covid-19 vaccine injured.<sup>3</sup>
4. Order the Task Force on Safer Childhood Vaccines to issue recommendations.<sup>4</sup>
5. Order that all health-related databases accessible by or in the possession of HHS or its agencies be deidentified and made public.<sup>5</sup>
6. Order FDA to issue minimum standards for licensure of vaccines.<sup>6</sup>
7. Amend the Vaccine Information Statement (VIS) for each vaccine to include, *inter alia*, all ingredients and the adverse events listed in Section 6.2 of the relevant package insert. *See* 42 U.S.C. § 300aa-26 (each VIS shall include "such other relevant information as may be determined by the Secretary").<sup>7</sup>
8. Order the retraction/removal of all MMWR articles and other CDC-related publications for which underlying datasets have not been made public.<sup>8</sup>

<sup>7</sup> See <https://www.law.cornell.edu/uscode/text/42/300aa-26>.

<sup>8</sup> See Task Force Letter, *supra* note 4, at section 1(b).

9. Order that each Freedom of Information Act office within HHS implement the requirements in Section 1(d) of the Task Force letter.<sup>9</sup>
10. Require HHS employees to sign a no-conflict pledge.<sup>10</sup>
11. Require that prior to commencing any HHS-funded study, its design be posted publicly; and require that all study outcomes must be published.<sup>11</sup>
12. Order that HRSA properly administer the Vaccine Injury Compensation Program (VICP), including as provided in Section 7 of the Task Force letter.<sup>12</sup>
13. Fire everyone within FDA's Center for Biologics Evaluation and Research (CBER) division who has previously been involved in licensing any childhood vaccine.<sup>13</sup>
14. Fire everyone within CDC's Immunization Safety Office (ISO).<sup>14</sup>

These are items that can be implemented after the required notice and comment guidelines:

15. Update the VICP Vaccine Injury Table to add injuries required by federal law.<sup>15</sup>
16. Update FDA direct-to-consumer marketing regulations to require full disclosures of harms in broadcast advertising.<sup>16</sup>
17. Require that each health care provider and manufacturer report any adverse event or suspected adverse event occurring within 60 days of vaccination to VAERS *regardless of a causation analysis*. See 42 U.S.C. § 300aa-25(b)(C) ("Each health care provider and vaccine manufacturer shall report [to VAERS] ... such other matters as the Secretary may by regulation require.")<sup>17</sup>
18. Promulgate a new regulation that all CDC vaccine recommendations shall be shared clinical decision-making.<sup>18</sup>

These are items that can be implemented with approval from the White House:

19. Reconstitute ACIP.
20. Ask ACIP to consider recommending that all vaccines (or at the very least those that do not stop transmission) be categorized as shared clinical decision-making.<sup>19</sup>
